PROPOSED - OFFICIAL NOTICE

DMS-2004-W-3

TO: Health Care Provider – All Providers

DATE:

SUBJECT: Coverage of Tobacco Cessation Products through the Arkansas Medicaid Prescription Drug Program

I. Introduction

In recognition of both the need and ability to facilitate tobacco cessation, Arkansas Medicaid will begin covering generic Zyban (bupropion for tobacco cessation), nicotine gum or nicotine patches. Participating providers must have prescriptive authority and the consultation must be in the scope of their practice. Effective for claims with dates of service on or after October 1, 2004, coverage of tobacco cessation products will be available with prior authorization to eligible Medicaid recipients.

II. Coverage and Limitations

- A. Reimbursement for generic Zyban if appropriate, and nicotine replacement therapy (NRT), either nicotine gum or nicotine patches will be available for up to two ninety-three day courses of treatment within a state fiscal year (SFY) (July 1- June 30) for eligible Medicaid recipients. Pregnant females will be allowed up to four ninety-three day courses of treatment per SFY. One course of treatment will be three consecutive months.
- B. Counseling, which will be required by the prescriber to obtain the initial prior authorization (PA) for the pharmacological agents, will consist of reviewing the Public Health Service (PHS) guideline-based checklist with the patient in the initial PA. The prescriber must retain the counseling checklist in the patient records for audit. A copy of this checklist will be available on the Medicaid website at www.medicaid.state.ar.us. Subsequent PAs will require prescriber referral to an intensive tobacco cessation program, such as SOS Works. A referral form will also be available on the Medicaid website.

PROPOSED

The prescriber may use the following procedure codes for counseling: **99401 and 99402 each with a modifier of SE.** The Arkansas Medicaid maximum allowable fee for procedure code 99401 is \$20.00 for one fifteen minute unit. Two counseling sessions will be allowed per SFY. The Arkansas Medicaid maximum allowable fee for procedure code 99402 is \$25.00 for a thirty-minute unit, with a benefit limit of two counseling sessions per SFY. In order for Medicaid to cover procedure code 99402, the prescriber must refer the patient to an intensive tobacco cessation referral program such as SOS Works, for counseling options. A referral form will be available on the Medicaid website. The participating prescribing physician will be reimbursed for the counseling services in addition to the regular office visit.

- C. Additional prescription benefits will be allowed per month for tobacco cessation products during the approved PA period and will not be counted against the monthly prescription benefit limit. One benefit will be allowed for generic Zyban if the physician believes that generic Zyban therapy is appropriate and one benefit for nicotine replacement therapy, either nicotine gum or patches.
- D. To promote discontinuation of tobacco products by eligible Medicaid recipients for each month of the three month course of therapy, Arkansas Medicaid, if appropriate, will reimburse up to a thirty-one (31) day supply of generic Zyban not to exceed 62 tablets, and either nicotine gum up to a 31 day supply not to exceed 504 pieces; or nicotine patches up to a 31-day supply not to exceed 31 patches.
- E. Tobacco Cessation products will require a prescription and a prior authorization (PA). The criteria required for the PA can be found on the attached PA forms and these forms will be available on the Medicaid website. The prescribing physicians will process the PA through the voice response system (VRS). The PA begin date is the date requested on the VRS. The PA is effective for ninety-three days from the date requested. A national drug code (NDC) is necessary to request the prior authorization. The NDCs for the covered products are listed below. The NDCs will also be available on the Medicaid website.*

*** NDCs are for reference only; they are not to be construed as approval for “brand medically necessary” prior authorization.**

- F. Over the counter (OTC) as well as any legend products will be eligible for reimbursement. OTC products are not covered for long term care residents.
- G. Tobacco cessation products are **not** subject to co-pay and do **not** count towards the monthly prescription limit. Counseling procedure codes **(99401 and 99402 each with a modifier of SE)** will not count against the twelve visits per SFY, but each procedure code is limited to two counseling sessions per SFY.

Thank you for your participation in the Arkansas Medicaid Program.

2.b. Rural Health Clinic Services

Rural health clinic services are limited to twelve (12) visits a year for recipients age 21 and older. This yearly limit is based on the State Fiscal Year (July 1 through June 30). The benefit limit will be considered in conjunction with the benefit limit established for physicians' services, medical services furnished by a dentist, office medical services furnished by an optometrist and certified nurse midwife services. Recipients will be allowed twelve (12) visits per State Fiscal Year for rural health clinic services, physicians' services, medical services furnished by a dentist, office medical services furnished by an optometrist, certified nurse midwife services or a combination of the five. For physicians' services, medical services provided by a dentist, office medical services furnished by an optometrist, certified nurse midwife services or rural health clinic core services beyond the 12 visit limit, extensions will be provided if medically necessary. **Certain services, specified in the appropriate provider manual, are not counted toward the 12 visit limit.** Recipients under age 21 in the Child Health Services (EPSDT) Program are not benefit limited.

Rural Health Clinic core services are defined as follows:

- (1) Physicians' services, including required physician supervisory services of nurse practitioners and physician assistants;
- (2) Services and supplies furnished as an incident to a physician's professional services;

Services and supplies "incident to" the professional services of physicians, physician assistants and/or nurse practitioners are those which are commonly furnished in connection with these professional services, are generally furnished in the physician's office and are ordinarily rendered without charge or included in the clinic's bills; e.g., laboratory services, ordinary medications and other services and supplies used in patient primary care services.
